Course Guide

Please review the table below to see all the components of the course

Course components	Description
Pre-test	The pre-test is designed to assess your knowledge of the subject matter prior to viewing the lesson. You have one attempt and must take the pre-test before viewing the lesson if you wish to receive a Certificate of Completion.
Lesson	The lesson contains the instructional material to cover the course learning objectives. Provided below are the technical requirements for viewing the lesson.
Post-test	The post-test is designed to assess your knowledge of the subject matter once you have completed the lesson. You have up to two attempts to complete this assessment. Your grade will appear on your Certificate of Completion.
Course evaluation	All course evaluations are completely anonymous and help us to make any improvements, if necessary, to the course. You must submit the evaluation before receiving your Certificate of Completion.
Certificate of Completion	Once you have completed all the course components, you may access your Certificate of Completion. You should download it to keep a copy and you may always return to the course page to view it.
